Sa Ex 95

REGISTER OF RAINFALL IN 1910.

FORM A2. BRITISH RAINFALL.

5 JAN 1911

Kept at Barnard Castle

in the County of Durham 1

by Roger Hitchcock

Rain Gauge
Pattern Snowdon
Diameter of top 5 in.
Height of top above Ground 1 ft. 6 in.
" " " Sea Level 540 ft.

Time of Observation 9 am

Nearest Railway Station
Name Barnard Castle
Distance 1 mile Direction North

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

REGISTER OF RAINFALL IN 1909

FORM A2. BRITISH RAINFALL.

29 JAN 1910

Kept at Seaham Harbour

in the County of Durham

by C. H. Aird

Rain Gauge: Pattern ...... Diameter of top ...... in. Height of top above Ground ...... ft. ...... in. " " " Sea Level ...... ft.

Time of Observation 9 am

Nearest Railway Station: Name ...... Distance ...... Direction ......

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

REGISTER OF RAINFALL IN 1910

FORM A2.
BRITISH RAINFALL.

4 JAN 1911

"Sunnyside"

Kept at 94 Londonderry Road Stockton on Tees

in the County of Durham 1

by W B Heberden

RAIN GAUGE
Pattern
Diameter of top 8 in.
Height of top above Ground 4 ft. 1 in.
" " " Sea Level 46 ft.

Time of Observation 8·45 A.M.

Nearest Railway Station
Name
Distance Direction

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

Jan. 1, following.

RAIN GAUGE: Pattern ..... Diameter of top ..... in. Height of top above Ground ..... ft. ..... in. " " " Sea Level ..... ft.

Time of Observation .....

Nearest Railway Station: Name ..... Distance ..... Direction .....

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

REGISTER OF RAINFALL IN 1909.

FORM A2. BRITISH RAINFALL.

12 JAN 1910

Kept at Mowbray Park, Sunderland

in the County of Durham

by H. Renney, M.D., D.Hy.

Ev
jgp

RAIN GAUGE
Pattern
Diameter of top 5 in.
Height of top above Ground 1 ft. in.
" " " Sea Level 105 ft.

Time of Observation 9 a.m.

Nearest Railway Station
Name Sunderland.
Distance 150 yds. Direction N.W.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

REGISTER OF RAINFALL IN 1910

FORM A2. BRITISH RAINFALL. 3 JAN 1911

Kept at Usworth

in the County of Durham

3

by H. W. Walbank.

RAIN GAUGE
Pattern Not known
Diameter of top 5 in.
Height of top above Ground 1 ft. — in.
" " " Sea Level 284 ft.

Time of Observation 9 a.m.

Nearest Railway Station
Name ~~H.W. Walbank~~ Usworth
Distance 2m. Direction E

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

Jan. 1, following.

Name
Distance .... Direction

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

REGISTER OF RAINFALL IN 1910

FORM BRITISH RAINFALL.

21 JAN 1911

Kept at Water-works West Hartlepool

in the County of Durham. 1

by Hartlepool Gas & Water Co.

Rain Gauge:
Pattern Casella Square Pattern
~~Diameter~~ of top 10" in. sq
Height of top above Ground 1 ft. 0 in.
" " " Sea Level 35 ft.

Time of Observation 10 am.

Nearest Railway Station: Name West Hartlepool
Distance ½ m Direction S.S.E.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.
